

An Uncomfortably Hot Fact

Heating can account for 60% of a buildings energy use and most of it is wasted.

How you can help

- Dress appropriately for the season
- Close doors and windows when the heating is on
- If you have opened a window for ventilation, remember to close it. Turn heating down if too hot rather than open a window
- Set thermostatic radiator valves to a comfortable level (2-3)
- Report heating and ventilation problems to Facilities Helpdesk on 6464
